FINISHES

The options are limitless when it comes to bathroom design - and the beauty is that you can't really go wrong.

It is increasingly popular to mix wood, marble, tile and terracotta. These elements bring dimension and personalization.

In this guide we will explore the ever so popular black finish.

MATERIALS

Check out our "Material Guide" in our Blog to help with the differences between materials on the market along with their Pros and Cons.

PLAN

Request color samples. Do you gravitate towards neutral tones or something bolder?

DESIGN

What's trending in bath design? Consult with a designer or create mood boards that capture your style.

WHAT'S TRENDING?

Simply stated: Black.

Black finishes, tiles, bathtubs, accessories, even black walls.

It is important to design your bathroom in a way that you will be happy with it for years to come - not just what is popular today.

A well thought-out black bathroom is classic and timeless.

Accessorizing with metallic accents evokes sophisticated flair.

Big, bright white tiles give a clean, crisp look.

ARE BLACK BATHTUBS EASY TO CLEAN?

There is a huge misconception that black finishes are difficult to keep clean, and this is simply not the case.

Whether you like a matte or gloss finish our InspireStone™ when cared for properly will remain as beautiful for years to come as the day you installed it.

ARE BLACK FAUCETS HERE TO STAY?

Black finishes are bold and modern. Thus finish remains popular because it is so versatile.
