

Care and Cleaning instructions:

Routine cleaning with a soft sponge or cloth with non-abrasive household cleaner is all that is needed to give many years of trouble free service. We recommend cleaning agents in the form of a multi-purpose spray or liquid variety common in the household section of most stores.

The use of hard abrasives may cause scratching, discoloration and dullness to the surface.

At T & L we pride ourselves in the quality of our products, so we strongly recommend that you use the services of a qualified installer.

In accordance with our warranty, we do not accept responsibility for any defect or shortcoming in the installation of our bathtubs.

For your own piece of mind we offer installation guidelines as we do not accept responsibility for any incorrect installation.
